

No Mobile Phones on site!

Mobile phones must not be used by anyone working on petrol forecourts.

There is a risk not just from flammable vapours being ignited, but also from the distraction of using the phone.

Forecourts are dangerous places at the best of times, but if you're not aware of your surroundings it's will only be a matter of time before you have an injury.

Coteba's Safety Rules and Shells Life Saving Rules make it clear that mobile devices must not be used on site or when driving with or without hands free whilst on Shell business.

To clarify: Mobile phone devices must not be used on any Shell retail site. They may be used in the site office, welfare cabin and off site only.

The consequences of disobeying these rules is likely to result in exclusion of the individual from all Shell sites and may result in their employer losing future work on Shell projects

All - Please post this on all COTEBA Ltd sites and include in pay packets if possible.
PM's – Please check these TBT's are being completed and records are being kept. Please also use this number.
